

Dear Sirs,I benefit from listening to XM Satellite Radio and its traffic and weather channels. Satellite radio provides variety and quality that are not available elsewhere. I pay for these services and it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear.I respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I demand and deserve.

I travel to rural areas where programming is limited. XM enables me to have a variety of choices including up to the minute news in those areas.  
I pay for this right, it is my chice and should not be regulated.

Sincerely  
Driscoll Otto
